

SB22 | PERSEVERE UNDER PRESSURE

GRITSTONE

The Power of Persistence

CHOICE

You can keep quitting when pressure rises, or you can use this week to prove that discomfort no longer owns your standards.
Pick one worthwhile struggle, push past your normal exit point, and build proof that you can continue when motivation is gone.

G GAUGE THE PRESSURE

Where is pressure testing your resolve?

R REMEMBER THE REASON

Why does this struggle still matter?

I INCREASE THE STANDARD

What measurable push will you make this week?

T TRACK THE EXIT POINT

When do you normally stop or retreat?

S STAY IN MOTION

What action keeps you moving before excuses start?

T TEST YOUR LIMITS

Where can you safely push one step further?

O OWN THE STRUGGLE

What is this pressure trying to teach you?

N NORMALIZE THE GRIND

What boring action must become normal?

E EARN THE PROOF

What evidence will show you did not retreat?

LOCK IN

Choose one struggle and name the pressure clearly.
No vague targets. No escape language.

PUSH THROUGH

Track the moment you want to stop.
Move one step past your normal limit.

FINISH STRONG

End the week with proof, not excuses.
Let persistence become identity.
